♦ **What Is Percocet 10/325mg?**

Percocet 10/325mg is a combination of **Oxycodone** (an opioid pain reliever) and **Acetaminophen** (a non-opioid pain reducer). This medication is prescribed to help manage **moderate to severe pain** when other treatments are not effective. The oxycodone component changes how the brain and nervous system respond to pain, while acetaminophen enhances its effects and helps reduce fever.
